At JPMorgan Chase, we believe that being profitable and doing good works for the people and the world around us aren't exclusive of each other; they're integrated goals. When our business is strong and well governed, we're in a better position to translate positive financial results into sustainable community and environmental efforts that benefit everyone. This is the essence of corporate responsibility. Every day, we strive to make our firm a good corporate citizen -- and the most respected financial-services institution in the world. **Corporate Responsibility**

UI Web Applications Developer-160126598

Job Description

J.P. Morgan Chase is a leading global financial services firm. The firm is a leader in investment banking; financial services for consumers and businesses, transaction processing, asset and wealth management, and private equity. Under the JPMC brand, the firm services millions of customers in the United States and abroad. This includes many of the world's most prominent corporate, institutional and government clients.

About J.P. Morgan Corporate & Investment Bank

J.P. Morgan's Corporate & Investment Bank is a global leader across banking, markets and investor services. The world's most important corporations, governments and institutions entrust us with their business in more than 100 countries. With \$18 trillion of assets under custody and \$393 billion in deposits, the Corporate & Investment Bank provides strategic advice, raises capital, manages risk and extends liquidity in markets around the world.

We are seeking a **UI Web Applications Developer** that is proficient in various front-end web technologies and JavaScript frameworks (ExtJS, AngularJS, React, NodeJS). They have extensive experience developing scalable restful web services in Java, Python or similar. This role provides an opportunity to establish the technical direction and lead the transformation of the client experience for the Custody & Fund Services web applications used by our clients and business.

Responsibilities:

- Develop new user-facing features.
- Build reusable code and libraries for future use.
- Ensure the technical feasibility of UI/UX designs.
- Optimize applications for maximum speed and scalability.
- Assure that all user input is validated before submitting to back-end services.
- Collaborate with other team members and stakeholders.

Qualifications

- 5+ years experience with JavaScript; strong knowledge of its quirks, and workarounds.
- 5+ years experience of web markup, including HTML5 and CSS3.
- Strong experience writing REST web services in Java; Python preferred.
- Good understanding of AngularJS, ExtJs, React.
- Good understanding of asynchronous request handling, partial page updates, and AJAX.
- Proficient understanding of cross-browser compatibility issues and ways to work around such issues.
- Familiarity with front-end build tools, such as Grunt.
- Proficient understanding of code versioning tools, such as GIT, SVN, NPM.
- Good understanding of browser rendering behavior and performance.
- Experience with Spring, Tomcat, and NodeJS is a plus.
- Bachelor's Degree or equivalent experience.

JPMorgan Chase is an equal opportunity and affirmative action employer Disability/Veteran.
