Date: 02/27/2017

JOB DESCRIPTION:

Vitamin T Is working with an awesome digital agency looking for a Senior UX Designer for a six month, on-site contract to partner with their UX Practice lead to grow and develop their UX practice. You will be responsible for producing UX deliverables: site maps, wireframes, user personas, user journeys, process flows, copy decks, etc.

You will be responsible for some of the following items:

Facilitate brainstorming sessions and conduct stakeholder interviews to elicit business requirements from our clients, addressing product, brand, marketing, content and overall user experience

Collaborate in design sessions with the client, creative designers, technical developers, and project

managers to generate superb design work and happy clients

Lead and facilitate usability sessions, contextual inquiries, task analysis, analytic reviews and heuristic evaluations

Build strong relationships with account management peers, development and other critical partners to establish and deliver on the business and customer requirements that enhance our client's digital experiences and products

Help champion usability standards and user experience/human-centered design for the most intuitive and delightful application experience

Contribute to the internal development of UI/UX processes, deliverables and standards

Stay abreast of innovations in UX best practices, tools and topics of interest to the UI/UX community and help to infuse them back into the organization

Bonus if you have done any work on a sporting goods client !

REQUIREMENTS:

BS/BA in Human-Computer Interaction, Graphic Design, Information Systems, Computer Science, or equivalent work experience

6+ years of experience with user-centered design methodology and at least 3-4 years of mobile and/or application design experience

Worked in depth with design and presentation software, specifically: Omnigraffle, Axure, Adobe Suite, and Microsoft Office products (Visio)

Created wireframes, sitemaps, navigation flows, user journeys, process flows, interaction design, and specs

Strong human factors, information architecture, and human-centered design background

Understand responsive design and have the ability to work in tandem with the creative design team

Deep experience streamlining the production of design deliverables to support an Agile methodology including developing processes, workflows, and templates

Ability to communicate with all levels of management and staff to achieve desired outcomes and build strong alliances and relationships

Excellent listener with a passion for user experience

A conversationalist with excellent interviewing, ethnography, and field research skills

Ability to question assumptions and establish a new normal for mobile web platform and tools design and to remain up-to-speed on interaction design trends and patterns

Organizational skills and the ability to manage several projects simultaneously is a must (Consulting experience is a plus)
