Date: 03/01/2017

JOB DESCRIPTION:

Aquent's Fortune 500 retail client is looking for a UX Designer to work a contract with potential to hire onsite in Deerfield, IL..

This role will work on a complex group of internal products in an agile and cross-functional team environment.

Job Responsibilities:

- Drives customer advocacy by showing empathy for our customers and users of our software solutions, their needs and goals.
- Defines user requirements in response to business goals working with product management and

technology partners.

- Actively participates in a cross-functional agile teams; representing User Experience alongside research, visual design, copywriting, product management, development and QA. Shares delivery accountability with agile teams.

- Creates prototypes, process flows, wireframes, and design specifications. Works with Business Analysts in the development of use cases required to document business rules and expected online customer behaviors.

- Participates in and analyzes user research and usability test results. Seeks out consumer data and web analytics when developing experience solutions.

- Participates in project reviews; collaborates with the User Experience group in the development of, promotion of, and compliance to, experience design standards.

- Participates in backlog grooming and sprint planning.

- Senior roles bring mentoring and coaching capabilities, team leadership, and identify new methods for practice development.

Basic Qualifications

- Digital portfolio of relevant projects

- Bachelor's degree and at least 3 years of experience in eCommerce or other customer-facing digital experiences.

- Experience interacting with creative teams, business owners and/or technical teams.

- Experience participating in, and defining, user experience processes and best practices.

- Experience with page design / wireframing programs, such as Axure and Adobe Creative Suite.

- Willing to travel up to 10% of the time for business purposes (within state and out of state).

Preferred Qualifications

- Master's Degree in Interactive Design, Human-Computer Interaction, or similar

- Experience designing for mobile applications, as well as adaptive/responsive websites

- Experience with the creation of interactive prototypes, e.g., Axure

- Interactive agency or consulting experience

- Experience in healthcare or financial industries
